## ICD-10-CM Training for Skilled Nursing Facilities: Integrating SNF Coding Systems in Preparation for PDPM

### Workshop Content / Focus:

This training will review common challenges skilled nursing facilities face regarding ICD-10 coding and share best practices for accurate diagnosis coding across the interdisciplinary team. Participants will learn about common coding errors seen in skilled nursing facilities and review coding guidelines for these areas. In addition, the course will provide a review of the importance of coding specificity, local rules of coverage, sequencing for billing, and best practices for the assignment of diagnosis codes. Upcoming code changes impacting the nursing facility setting will be reviewed, with a focus on the diagnosis codes that impact reimbursement under the Patient Driven Payment Model (PDPM) taking effect October 1, 2019.

### Projected Learning Outcomes/Course Objectives:

- ▶ Understand best practices for diagnosis coding in the SNF setting
- ▶ Develop skills to prevent common coding errors in the SNF setting
- ▶ Identify clinical information that should be documented to support ICD-10-CM diagnosis coding specificity
- ▶ Understand coding changes that will impact the SNF setting under Medicare PDPM

#### Speaker: Shelly Maffia, MSN, MBA, RN, LNHA, QCP | Proactive Medical Review & Consulting

Shelly has over 15 years of leadership and consulting experience, holding positions as DON, NHA, Corporate Nurse Consultant, and Training. Currently she provides consultation on regulatory compliance to nursing facilities in multiple states. Her expertise includes developing clinical training tools, policies, procedures, protocols and training programs on systems, processes and best practices

**Target Audience:** Nursing, Medical Records, MDS Staff, Therapy, Business Office

### Registration fees:

include, materials, lunch & 5.5 CEs

LeadingAge WA member: \$119.00

Workshop participant: \$159.00
