

PROACTIVE MEDICAL REVIEW

Restorative Nursing Programs: Effective Development and Implementation

Course Description:

This 6-hour live event will review the fundamentals of Restorative Nursing Programs (RNP) with focus on effective program development, implementation, and monitoring. Participants will also gain insight into supportive documentation, program effects on reimbursement, and establishing staff competency for successful outcomes.

Learning Objectives:

1. Understand RNP basics including the intent and importance of RNP for your resident population
2. Review requirements for program development, implementation, and monitoring
3. Understand and apply RNP documentation requirements for effective care planning and reimbursement
4. Develop processes to establish staff competency and promote participation for successful program outcomes

Presented By:

Eleisha Wilkes, RN, RAC-CT, ProActive Medical Review. Eleisha is a Registered Nurse and AANAC certified MDS consultant with over fifteen years of experience in long term care. She has served as a Director of Nursing, Case Manager and Resident Assessment Coordinator with extensive responsibility and success in driving QA in the areas of person centered assessment and care planning through effective systems, staff development, and interdisciplinary team collaboration. Eleisha specializes in Emergency Preparedness, MDS 3.0, reimbursement compliance, competency-based staff education programs, SNF/NF survey readiness, and Phase 1-3 Requirements of Participation compliance.

Target Audience: Director of Nursing, Assistant Director of Nursing, Nurse Managers, MDS staff, Therapy staff
