**LeadingAge Washington’s Annual Assisted Living Certified Leadership & Management 3-day program is designed to guide staff to understand and further develop their role in this environment.**

Experienced presenters will focus on high level, day to day operations of the Assisted Living community. Participants will meet weekly (Tuesdays). Content areas will include: Survey; Leadership; Human Resources & Training; Partnership & Collaboration; Quality Metrics; Finance & Budget and Regulatory!

**Upon completion of the course attendees will be able to:**

- Understand the future role of Assisted Living
- Identify leadership strategies that can be used in management of an Assisted Living community
- Identify opportunities for making positive change in your current community environment
- Identify strategies to recruit and retain quality staff
- Find and utilize regulations to support best practices in the environment
- Develop positive relationships with state regulators and other outside entities
- Effectively manage resident care & medication management programs
- Implement a quality assurance/improvement program
- Understand components of a strong risk management
- Discuss requirements related to incident reporting, nursing scope of practice, fair housing and employment laws.

- And, further develop their career through career development strategies, networking and mentoring opportunities within their immediate environment and the broader community.
