

**COVID-19 presents unique challenges to long-term care facilities.**

**We can help.**

**Our non-regulatory Infection Control Risk Assessment (ICAR) program is open to facilities across the state. Contact the Washington State Department of Health to set up a free one-on-one consultation with an infection prevention expert.**

**ICARs are a great opportunity for skilled nursing facilities, adult family homes, and assisted living facilities to:**

- Get answers to your questions about infection control protocols in your facility from our infection prevention expert.
- Get answers to your questions about infection control protocols in your facility from our infection prevention expert.
- Receive personalized advice and recommendations.
- Get the latest Department of Health long-term care guidance.
