

APIC PUGET SOUND

VIRTUAL 2022 CHAPTER CONFERENCE: MDROs

Contact precautions for patients infected or colonized with MRSA is no longer the law in Washington State. With many new highly resistant organisms of concern, Infection Preventionists are evaluating risk and best practices to prevent transmission.

At this conference we will learn about the most concerning emerging pathogens, how to evaluate risk to your patients and prevent transmission to others.

Friday, October 28th

9:00 am - 3:00 p.m.

Check in at 8:30 a.m.

*Registration open to Puget Sound APIC
Chapter members and non members!*

Conference Fee:

Registrant \$50 (register by 10/27 @ 8 p.m.)

Strategic Partner \$100 (register by noon 10/27)

Zoom Meeting Link provided prior to meeting

Conference Objectives:

State and local experts will present on drivers of multidrug resistance and common risk factors. Infection Preventionists need to understand in order to identify and prevent transmission within our facilities and throughout our communities.

Participants will:

- Determine how to identify Multidrug Resistance
- Identify steps that can be taken to prevent transmission to others
- Describe available community resources and stakeholders
